

Session 7 :
Perspectives and Strategy for
Application of Radiation Technology

Survey of yesterday's discussion

1. Application

medical field

agricultural field: mutation breeding, fertilizers

2. Research Reactor

capacity building, safety management

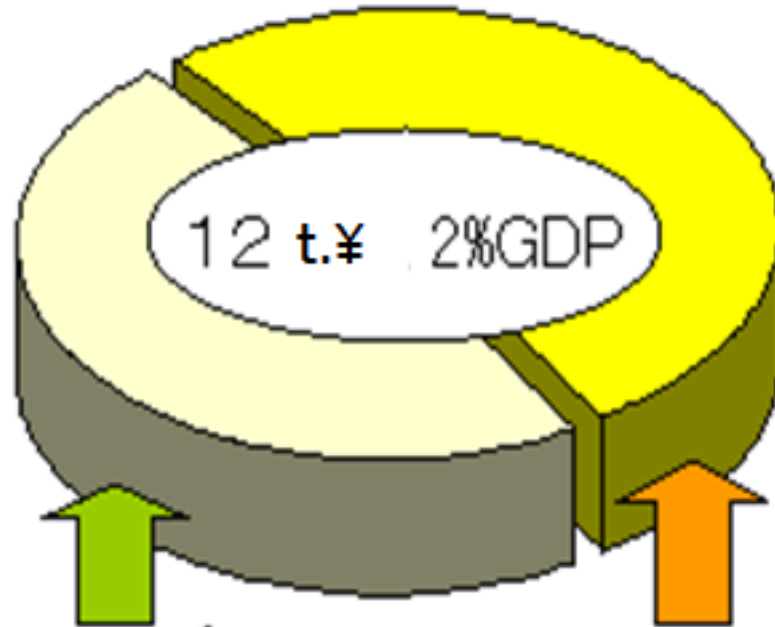

NAA, network of research reactors

3. Safety and Safeguards

radiation safety, including mining place

radioactive waste management

Radiation and Radioisotope Market

Energy

5.7 t.Yen

(60 b. \$)

Others

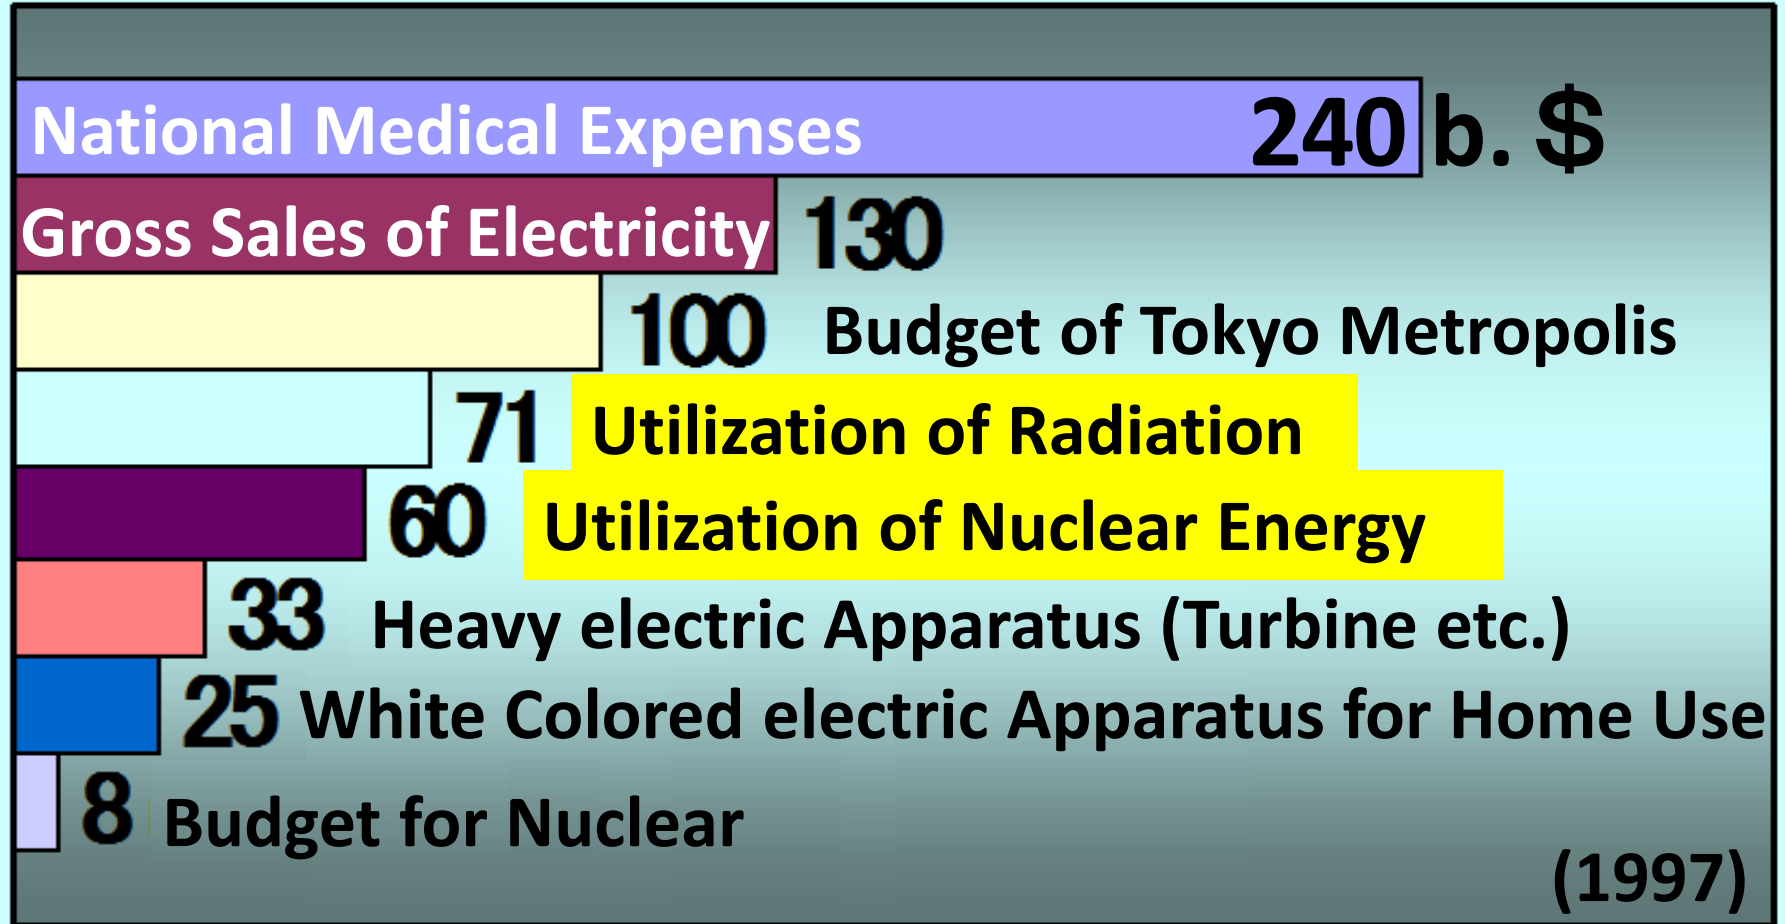

6.6 t.Yen

(71 b. \$)

First survey work (1997)

Comparison with another businesses
